

### **We Are Texting!**

Great news! We have partnered with Ortho2 Edge to provide a new form of communication! You can now text us about anything you might usually call us to ask, or help with. You will text [662-715-4520](tel:662-715-4520) to reach any of our locations. Our goal is to make communication with our office convenient and easy for you.

### **Reasons why you might text us:**

- Send a picture of your current/updated insurance card
- Have a visible problem? Send us a picture so we can take a look!
- Text in about your Appointments
  - \*Scheduling
  - \*Verifying the time/day
  - \*Rescheduling
  - \*Cancelling
  - \*Running late
  - \*Estimated length of appointment
- Text us any questions you might think of before or after your appointment
- Verify your current account balance

Just like phone calls and voicemails, texting may not always be 100% secure depending on your mobile phone or service. Therefore, we need your written authorization if you would like us to communicate with you in this fashion.

**Message/Data rate may apply to messages sent through Ortho2 to your cell phone.**

GO Orthodontics wants you to be safe when texting! Please do not text and drive.

To OPT OUT of text messaging with GO Orthodontics, just text STOP to the number given above. We will no longer communicate with you via text.
